Final-year Information Systems student with strong experience in backend development, API integration, and system design. Skilled in building scalable web applications and solving real-world technical problems through structured analysis, debugging, and prototyping. Experienced in working with REST APIs, databases (SQL/NoSQL), and cloud-based systems. Demonstrates growing interest in AI-driven solutions, including Retrieval-Augmented Generation (RAG), LLM integration, and automation workflows. Able to communicate technical concepts effectively to both technical and non-technical stakeholders. Strong analytical thinking, problem-solving ability, and leadership experience with a commitment to building reliable and well-documented systems.

Education Level

Del Institute of Technology  - Laguboti, Sumatera Utara	Aug 2022 - Oct 2026 (Expected)
Undergraduate in Information System, GPA : 3.33/4.00	

INTERNSHIP & MBKM EXPERIENCE

Web / IT Internship - Bogor, West Java PT. ELTAMA PRIMA INDO	Jul 2025 - Aug 2025
- Developed and maintained web applications using Svelte and Directus (headless CMS). - Integrated REST APIs and managed backend data flow. - Designed and structured database schemas. - Implemented authentication and role-based access control - Collaborated using Git and followed modular development practices	
Junior Cyber Security – Independent Study (MBKM) Vinx Seven Aurum	Feb 2022 - Oct 2026
- Conducted vulnerability assessments using tools such as Nessus, OpenVAS, and Wireshark. - Performed system hardening and security analysis based on OWASP standards. - Worked with SIEM tools (Wazuh) for monitoring and incident analysis.	

Project Experience

Del Institute Of Technology	
Human-Computer Interaction Projects	Dec 2023 - Dec 2023
Website Evaluation and Prototyping for IT Del Library Evaluated usability and designed prototypes to enhance user experience. Website Design for Institut Teknologi Del Developed a comprehensive redesign with improved functionality and aesthetics.	
RecipeRipple Website Development	Aug 2024 - Dec 2024
- Designed database structures, including ERD, SQL, API, scripts, and normalization procedures. - Built backend API and integrated frontend features - Focused on creating user-friendly interfaces and implementing secure web functionalities	
System Security Final Project	Sep 2024 - Dec 2024
Conducted an analysis of XML External Entity vulnerabilities and proposed mitigation strategies.user verification, inventory and product	
Machine Learning Web App (Streamlit)	Mei 2025 - Jun 2025
- Built and deployed ML-based prediction system using Random Forest - Developed interactive dashboard using Streamlit - Enabled data visualization and model exploration.	
BEM Website Development	Sep 2025 - Dec 2025
- Developed a student organization (BEM) website using React.js for the frontend and Golang for the backend. - Implemented RESTful APIs, authentication, and role-based access control. - Collaborated in a team environment using Git for version control and followed modular, maintainable code practices.	

WalletNotes – Mobile Finance & Task Management App

Jan 2026 - Present

- Developed a cross-platform mobile application using Flutter and Dart for personal finance and task management.
- Implemented CRUD operations for income and expense tracking with automatic balance calculation.
- Designed expense analytics feature with category-based chart visualization.
- Built task management system with priority levels and reminder functionality.

Organisational Experience

President of the Student Executive Board (BEM) Institut Teknologi Del

Sep 2024 - Jan 2026

- Lead and oversee all BEM activities and initiatives.
- Coordinate with various student organizations and university departments to implement student programs.
- Represent student interests in university meetings and discussions.

Information Systems Student Association (HIMSI)

Oct 2023 - Feb 2024

Member of the Arts Division

- Contributed to the planning and execution of artistic events and activities for HIMSI.
- Collaborated with other divisions in organizing and promoting student events.

Skills

- **Hard Skills** : SQL, PHP, Python, Java, Javascript, Laravel Framework, HTML and CSS, React.js, Flutter, Design, Figma, Svelte Framework, Directus, Cryptography, OWASP
- **Soft Skills** : Critical Thinking, Analytical Thinking, Problem Solving, Communication Skills, Attention to Detail, Time Management, Adaptability, Collaboration, Documentation Skills
- **Languages** : Fluent in Indonesian ; Intermediate in English.
